PROFILE

Engineering graduate with a European Master's specialising in technical information management, targeting a technical coordination role in infrastructure maintenance. Master's coursework covered process modelling and workflow improvement, and I prepared and validated technical requirements for a multidiscipline project under ISO 19650. Build monitoring and reporting tools over structured technical data in Python.

PROJECTS

Federated BIM Model – Pakistani-Themed Expo, Guimarães | IFC, Autodesk Construction Cloud Oct 2025

- Owned the federated model and clash-detection workflow across architecture and MEP disciplines, validated against Employer's Information Requirements under ISO 19650.

BIMGraphExplorer – LLM agent for IFC question answering | Python, MCP, Neo4j 2026

- Adaptive querying system exposing four read-only tools over the Model Context Protocol; profiles the graph schema and issues iterative Cypher queries conditioned on prior results.
- Raised answer accuracy by 33 percentage points and source transparency from 12.5% to 99.7% on a fixed model and dataset, through prompt design alone.

EDUCATION

MSc, European Master in BIM (BIM A+) | UL FGG, Ljubljana, Slovenia Oct 2025 – Jul 2026

- Field of study: Information Management in Construction. Completed the accelerated thesis track, finishing full MSc requirements in 10 months. Final grade 9.27/10.
- Applied coursework in process modelling and workflow improvement, technical requirements definition and validation, and cost estimation.
- Thesis: *Graph-Mediated LLM Exploration for IFC Question Answering*. Supervisor: Prof. Žiga Turk.

BE Civil Engineering | NUST, Islamabad, Pakistan. Final grade 3.25/4.00 Sep 2020 – Jun 2024

EXPERIENCE

Contract Management Intern | Engineering and Management Services, Pakistan June 2023

- Reviewed contract reports and arbitration documentation under FIDIC conditions; presented findings to the internal legal team.

Civil Engineering Intern | Fatima Fertilizer Company, Pakistan July 2023

- Modelled a 6,804 m² rock phosphate storage shed in 3D from 2D drawings, coordinating with stakeholders on design refinement.

SKILLS

Technical & Process: Technical requirements definition and validation, technical bases for projects and tenders, process modelling and maintenance workflow improvement, contract documentation (FIDIC conditions), AutoCAD

Systems & Data: Python, monitoring and reporting tools over structured technical data, Neo4j, Git, MS Office (Word, Excel, PowerPoint)

Languages: English (C1), Slovene (A1, actively learning)

Driving licence: Category B
