

Subject: Application for BIM Coordinator, Hurks Eindhoven

Dear Ms. den Haan,

I'm writing to apply for the BIM Coordinator position at Hurks in Eindhoven. I hold a Master's in Building Information Modelling from the University of Ljubljana, built on a Bachelor's in Civil Engineering, with hands-on experience coordinating BIM models and connecting design, preparation and execution.

I owned a federated BIM model's clash-detection workflow across architecture and MEP disciplines for a multidisciplinary project, validated against Employer's Information Requirements under ISO 19650, and built an LLM-based agent for structured, traceable BIM data querying. I'm genuinely drawn to how Hurks is thinking about digitalization, automation and AI in construction, and I'd bring both hands-on BIM coordination skills and a strong technical foundation for that direction.

I'd welcome the opportunity to discuss how my background could contribute to your team.

Best regards,
Haris Waheed Bhatti
