PROFILE

Civil engineer with a European Master's in Building Information Modelling, experienced producing and coordinating BIM models and construction documentation. Owned a federated model's clash-detection workflow across architecture and MEP disciplines under ISO 19650, and modelled a 6,804 m² facility in 3D from 2D drawings. Also builds automation tooling around BIM data, including an open-source IFC-to-Neo4j converter published on PyPI.

PROJECTS

Federated BIM Model – Pakistani-Themed Expo, Guimarães | IFC, Autodesk Construction Cloud Oct 2025

- Owned the federated model and clash-detection workflow across architecture and MEP disciplines, validated against Employer's Information Requirements under ISO 19650.

ifctoneo4j – Python package (PyPI) | Python, IfcOpenShell, Neo4j, Cypher 2026

- Open-source library converting IFC models (IFC2X3, IFC4, IFC4X3) into Neo4j property graphs aligned to Linked Building Data ontologies, with no RDF intermediate. Published to PyPI: `pip install ifctoneo4j`.

EDUCATION

MSc, European Master in BIM (BIM A+) | UL FGG, Ljubljana, Slovenia Oct 2025 – Jul 2026

- Field of study: Information Management in Construction. Completed the accelerated thesis track, finishing full MSc requirements in 10 months. Final grade 9.27/10.
- Thesis: *Graph-Mediated LLM Exploration for IFC Question Answering: A Benchmark Comparison Against Direct-IFC Approaches*. Supervisor: Prof. Žiga Turk. hdl.handle.net/20.500.12556/RUL-185169
- Applied coursework spanning the BIM delivery chain: scan-to-BIM from point-cloud capture, 5D quantity take-off and cost estimation, IFC schema auditing and model remediation, parametric façade optimisation in Dynamo, and process modelling and workflow improvement.

BE Civil Engineering | NUST, Islamabad, Pakistan. Final grade 3.25/4.00 Sep 2020 – Jun 2024

EXPERIENCE

Software Engineering Fellow | Headstarter AI (remote) 2024

- Built AI-powered applications in Python and JavaScript over a 7-week fellowship, including weekend hackathon projects and a capstone application.

Civil Engineering Intern | Fatima Fertilizer Company, Pakistan July 2023

- Modelled a 6,804 m² rock phosphate storage shed in 3D from 2D drawings, coordinating with stakeholders on design refinement.

SKILLS

BIM & Drafting: Revit, AutoCAD, Dynamo, scan-to-BIM (point cloud to model), 3D modelling from 2D drawings, clash detection and MEP coordination, federated models, quantity take-off and cost estimation, construction documentation

Standards & Data: IFC (IFC2X3, IFC4, IFC4X3), ISO 19650, Employer's Information Requirements, Autodesk Construction Cloud

Automation: Python, IfcOpenShell, TypeScript, JavaScript, That Open Engine, Fragments, Neo4j, Git

Languages: English (C2), Urdu (native, C2), Slovene (A1, actively learning)

CERTIFICATIONS

Master BIM Software Developer (in progress) | That Open Company Dec 2024 – present

- Building AEC web applications with That Open Engine, Fragments and TypeScript.
